

Xēko

MISSION:

MADAGASCAR

Out of the jungle comes this year's wildest new game!

Discover the secrets of Xēko and explore the African island of Madagascar, where wild and bizarre creatures hang from every branch. Meet teeny-tiny pygmy leaf chameleons, critically endangered lemurs, and an adult comet moth with no mouth.

The island's future is in your hands, the power to save it is in the cards. Compete with friends to gain special powers and wage turf wars using three kinds of cards. The player with the most Eco-points wins!
